AGENDA

TOWN COMMISSION WORKSHOP

**WEDNESDAY, September 2, 2020
MASNY ROOM, 507 OCEAN AVENUE**

Due to the effects of COVID-19, recognizing the Centers of Disease Control social distancing guidelines, and as authorized and in compliance with Governor Ron DeSantis Executive Order 20-112 (Phase I: Safe. Smart. Step-by-Step. Plan for Florida's Recovery), attendance in the Masny Room will be limited. Those in excess will be accommodated outside the Masny Room where the meeting will be broadcast live in an audible format. Should members of the public seated outside wish to be heard, comment cards will be available to fill out and those who do will be invited into the Masny Room for the purpose of speaking at the appropriate time. Anyone who wishes to provide public input without personally appearing at the meeting may do so by sending an email to townclerk@melbournebeachfl.org. All emails must be received prior to 4:00 p.m. on Monday, August 31, 2020. All emails will be provided to the Mayor and each of the Town Commission Members. Should you wish to have your comment read aloud by Town staff at the meeting, please indicate that in your email. Your full name and address must be included and will be read aloud. The reading of public comments received by email will be limited to three (3) minutes.

PUBLIC NOTICE

BEACH RENOURISHMENT PROJECT

The Town of Melbourne Beach has received notification from Brevard County that the next beach renourishment project is scheduled to begin. The following is information related to this project:

The project will consist of approximately 4 miles through Melbourne Beach, Indialantic and part of unincorporated Brevard County north on Indialantic.

Mobilization will start the first week of December. Sand pumping activities will start 12-17-09 and are expected to conclude 2-24-2010. Demobilization should be complete by 3-10-2010.

Work activities will start at the northern project boundary and work south. Once the work is started, the contractor will work 24 hours a day, 7 days a week until complete.

Approximately 500-1,000 feet of the beach will be closed at one time where the contractor is working. This may result in more than one of our beach crossovers being closed at the same time. However, the closure should not extend for a period of more than 2-3 days. The contractor will barricade the access to the beach access parking lots and provide security at the beach crossovers that are closed due to the work.

This is the same contractor that performed the work in Melbourne Beach in 2002. The same dredging and pumping process will be used for this project as employed in 2002. Signs will be placed at the crossovers to inform the public about the project.

Beach renourishment projects are planned for every 6 years. However, conditions are constantly monitored. Therefore, the time period for renourishment can be less or more than 6 years. The last renourishment occurred in Melbourne Beach in 2005 as an emergency project to restore hurricane damage.

This is a Federal project (Army Corps of Engineers). Federal funds are matched by Brevard County through a grant from the State. This beach renourishment project is part of an overall 50 year beach renourishment project.

A representative from Brevard County will attend our December 16th Town Commission meeting to make a brief presentation on the project and to answer questions.

We will obtain more detailed information regarding the project during weekly status meetings.
