CDC Guidance for Personal Activities

CLOTH FACE COVERINGS

- Wear cloth face coverings in public settings where other social distancing measures are difficult to maintain, such as grocery stores, pharmacies, and gas stations.
- Cloth face coverings may slow the spread of the virus and help people who may have the virus and do not know it from transmitting it to others.
- Children under 2 should not wear a cloth face covering.
- Wash your hands before putting on your face covering.
- Put it over your nose and mouth.
- Take off your cloth face covering carefully, when you’re home.
- You can include your face covering with your regular laundry, using the warmest appropriate water setting.
- After washing, use the highest heat setting and leave in the dryer until completely dry.
- Or, lay flat and allow to completely dry. If possible, place the cloth face covering in direct sunlight.

The CDC gives these tips for wearing cloth face coverings. For more information, click here.
