## State/National Updates

- The Florida Department of Health released recommendations for staying safe during Halloween activities. These include:
  - Wash your hands with soap and water for at least 20 seconds before and after preparing goodie bags
  - While visiting a pumpkin patches or orchards use hand sanitizer before touching pumpkins or picking apples
  - Attend a small, outdoor and open-air costume parade or have a virtual costume contest

- The Centers for Disease Control and Prevention is partnering with CVS and Walgreens to offer on-site COVID-19 vaccination services for residents of Long-Term Care Facilities. An overview of the program as well as frequently asked questions regarding the program is available on the Agency’s website at [http://ahca.myflorida.com/COVID-19_Facilities.shtml#facility](http://ahca.myflorida.com/COVID-19_Facilities.shtml#facility)

- The CDC updated COVID-19 Pandemic Travel Guidance. Travel increases your chances of getting and spreading COVID-19 depending on whether you and those around you take steps to protect yourself and others; such as wearing masks and staying 6 feet away from people outside your household. Airports, bus stations, train stations, and rest stops are all places travelers can be exposed to the virus in the air and on surfaces. These are also places where it can be hard to keep your distance from others. In general, the longer you are around a person with COVID-19, the more likely you are to get infected.
