V. UNFINISHED BUSINESS

- a. GSA Final Draft Review. This document has been in the works for the past 13 months. The EAB went through page by page via a projected version of the document. The goal was to get the document to near final; all comments will be submitted to Dr. Lindeman by Friday. The EAB will also let other environmental leaders/activists in the town know about the document, so they can provide comments before the workshop. Links can be added to the document, should there be any that that are not included at the moment. The board did vote on the Objective "Energy" (Objective 1). There were 3 votes in favor to keep as written, and one vote to modify. The objective moves forward to presentation to the public workshop.
- b. August 7th will be the town workshop on the GSA. Katie will be at here at the workshop.
- c. Taylor will be available if the town decides to have a second year intern.

VI. NEW BUSINESS

Leslie Maloney from the Sierra Club discussed the “Ready for the 100” initiative. This is a grass-roots effort to set a goal to be 100% clean energy by 2030 for town operations, and the entire city limits by 2050. Several local cities and towns have this initiative on their agenda to bring up at council meetings to work towards this goal.

VII. ADJOURNMENT

Member Morgan motioned at 9:16 to adjourn; Member Keshishian seconded. All in favor, the meeting adjourned.
